

Biofield Therapies/Chakra Balancing

Biofield Therapies/Chakra Balancing: Healing Touch • Reiki • Energy Medicine • Crystal Energy • Body Works

Healing Touch, Reiki and Energy Medicine are mind/body bio-field therapies that use light touch, focused intention and Universal Energy to influence the human energy system (bio-field), specifically the energy centers (chakras) and meridians that control the energy flow from the Universal Energy Field to, from and within the physical body. These non-invasive techniques use focused intention and the hands to facilitate the energy balance creating a state of deep relaxation and placing the mind/body in a position to self-heal.
