Matrix Energetics®

Matrix Energetics® is a consciousness technology that transforms limiting beliefs concerning healing, disease and the structure of reality. Transformation takes place by communicating at the quantum level with the wave fronts (energy and information) that create all of reality. The process begins with a gentle light touch and the power of focused intent, the client experiences a smooth wave of transformation, and the mind/body seems to drop into a completely relaxed state instantly. Engaging a new paradigm, your old reality collapses and new possibilities materialize giving you instant access to new states of awareness. Affecting change connected to past traumas, injuries and emotional patterns, this process frees the client from non-miraculous, non-helpful and static belief systems that have limited our past awareness. A new and empowered reality is created.

Certified Matrix Energetics™ Practitioners:

Dr. Rev. Deborah Lallier, ThD, CBT, HTP, CHt
