

ThetaHealing® Technique

A holistic spiritual healing consciousness process designed to transform limiting beliefs, long-held coping patterns, fears and past traumas, this creative visualization and meditative process engages Universal Energy and the theta-gamma brainwave state of the practitioner and client. Supporting constructive, positive and empowering physical, mental, emotional and spiritual patterns, this intuitively guided healing process reaches far into the subconscious programming to determine and transform the “core” belief or issue that is contributing to the dis-ease in the mind/body.

Certified ThetaHealing® Technique Practitioners:

Dr. Rev. Deborah Lallier, ThD, CBT, HTP, CHt

Certificate of Science Master ThetaHealer and Instructor
